**What is a Quadrennial Periodic Report (QPR) to the 2005 Convention?**

Information sharing and transparency stands at the heart of the 2005 Convention. Upon ratification, countries commit to submit every four years QPRs on the policies and measures they have adopted to implement the Convention. Elaboration of a QPR serves as a dialogue platform for civil society to engage with governments in assessing progress made to protect and promote the diversity of cultural expressions, identify priorities and challenges.

**How do I use this form?**

This form is a tool for Civil Society Organizations (CSOs) promoting the diversity of cultural expressions as means to contribute to the QPR of your country. It is meant to facilitate information sharing of RELEVANT MEASURES AND INITIATIVES that your CSO has undertaken in the last 4 years to implement the 2005 Convention. You can share as many measures/initiatives as you would like to report on by filling in this form multiple times.

**How will measures by CSOs be selected for submission in the QPR?**

Measures and/or initiatives submitted by CSOs will be reviewed for onward consolidation and inclusion, as relevant, in the QPR submitted by the State Party to UNESCO.

**How will future priorities for CSOs be included in the QPR?**

Priorities reported by CSOs will be consolidated. Up to ten of them will be included in the QPR submitted by the State Party to UNESCO.

- Development and Implementation of 4 Community Public Art Projects led by 4 creative women
- Bottom up development of Recommendations for Civil-Public-Private Partnership in Public Art Policy and Action Plan 2019-2025 documents submitted to Tirana Municipality and Ministry of Culture

Some other brief notes: Tirana Municipality developed a Culture Strategy document in 2019 emphasizing Public Arts, established Public Art Sector under Infrastructure Development Dept, and also applied but did not win the bid for European Capital of Culture. Ministry of Culture failed to incorporate public arts in the National Culture Strategy document in Jan. 2020. Both institutions have not shared the docs on Public Arts Policy and Action Plan for public feedback as recommended, but have increased support for public art projects in the last 3 years. Lack of monitoring for Public Arts Policy and Action Plan recommendations by civil society due to lack of funds.

FUTURE PRIORITIES
What do you consider should be the priorities of CSOs when implementing the 2005 Convention over the next 4 years? Why? (400 words)

- Monitoring of public policies/ strategies and gathering of data and statistics in the arts, culture, creative economy, etc. in order to have a diversity of sources collecting information, in order to supplement and compare data. In most cases public institutions are given priority towards such grants, like grants from EuroStat, but public institutions in some countries, like Albania are not always capable of gathering and disseminating data, public administration changes lead to incomplete projects, but many experts engaged with CSOs could do a better job, and should be supported in such activities, also in collaboration with the public and private sector.

- Innovation and Digital development - Creative Methodologies to Problem Solving and Freedom of Expression in shared Public Spaces. Several Artist/ Activist public artworks targeting government, political, social affairs, were immediately destroyed by public institutions, and several communities in Tirana have complained about artworks they don’t like by artists sometimes supported by public institutions, thus digital platforms could allow for more freedom of expression. How would our communities look like if artists, citizens digitally placed their works and messages in our public shared spaces?

- Participatory Governance - Engagement of communities through bottom up approach to decision making processes in public institutions. As communities are not involved in decision making, and feel, know that public institutions do not care about their opinion, they often disregard and even destroy public artworks “imposed” in their daily life.
