What changes are needed?

Speakers: Didier Babin, Chair of the French MAB committee and Team leader of the project post 2020 EU at Expertise France
Dr Irene Hoffmann, Secretary of the Commission on Genetic Resources for Food and Agriculture, FAO
Paul Leadley, Researcher, University of Paris-Saclay, IPBES expert
Pierre-Yves Pouliquen, Director of Sustainable Development, SUEZ

Moderator: Meriem Bouamrane, UNESCO Biodiversity Focal Point, MAB Programme

Didier Babin

Didier Babin is the chair of the French MAB committee. He is currently team leader of the project "Post 2020 Biodiversity Framework * EU Support" financed by the European Union and implemented by Expertise France. He is a French-Canadian researcher with CIRAD (France) and associate researcher at the Université du Québec à Montréal (Canada). In recent years, he has devoted himself to the development of ecosystem accounting in order to integrate the depreciation of natural capital into national accounts. He has been National Focal Point of the Scientific, Technical and Technological Body of the Convention on Biological Diversity (CBD) for 8 years. Didier Babin joined the CBD Secretariat for 5 years as senior program officer of the Biodiversity for Development and Poverty Eradication Program and was a member of the United Nations technical team for the preparation of the SDGs. Previously he was involved in the emergence of IPBES (Intergovernmental science-policy Platform on Biodiversity and Ecosystem Services), as executive secretary of the IMoSEB process. He has been Chair of the International Coordination Council of the UNESCO Man and the Biosphere MAB Program from 2016 to 2018. He is a member of the French National Committee of Biodiversity.
Dr Irene Hoffmann (PhD) is Secretary of the Commission on Genetic Resources for Food and Agriculture in the Food and Agriculture Organization of the United Nations (FAO).

Dr Hoffmann holds a PhD from Hohenheim University (Germany).

Before joining FAO, Dr Hoffmann was assistant professor at the Institute of Livestock Ecology, Giessen University (Germany), where she coordinated several international research programmes. She also worked in development for the German Agency for International Cooperation (GIZ, Africa), as scientific editor, and for various non-governmental organizations (NGOs).

She has organized international conferences and published extensively in refereed journals, books and conference papers on scientific and policy topics, and she has served in various advisory committees and review panels.
